The Sustainment Training Center offers an M1A2 SEPv3 Troubleshooting Course that contains instruction on conducting on-board and alternate troubleshooting procedures for both the Hull and Turret Systems. In depth instruction on how to use the on-board diagnostic system in conjunction with the technical manual for troubleshooting the Hull and Turret. Schematic interpretation and tracing of various Hull and Turret circuits.

The training is NOT MOS producing or Additional Skill Identifier (ASI) awarding.

This course is in the ATRRS School Reservation System under School Code 952, Course Title: 964-M1A2 SEPV3TS.

Technicians/Soldiers attending the instruction will attend this training in a paid status. Cost to the States for sending Technicians/Soldiers include travel to and from Camp Dodge from the Technicians/Soldiers home station. Food subsistence is local economy. Lodging is available on Camp Dodge for $48.00 per night for single room, queen size bed and shared latrine.
